

P. M. in the Stable

P. M. at the Garage

ALCO

Motor Trucks

To The Man Who Drives a Horse

Study these two pictures. The left one shows the stable after the horses have come in from the day's work. The right one shows the garage when the trucks have come in from the day's work.

When the truck comes in the working day for you is finished.

When the horses come in it takes probably an hour longer to unharness them, put the harness away, feed the horses, bed them and take care of them.

This is an important hour in the day for you.

But consider also the more skilled and better paid man you become when you drive a motor truck. You become

acquainted with mechanics—it doesn't take much time to learn to drive an Alco truck. And besides you get over a lot more territory in a day. You accomplish more work. There is some satisfaction in that.

Moreover, you stand higher up in the world. You accomplish more for the man you are working for. It is appreciated by him.

If you are ambitious to better yourself and provide more for your family, learn now all you can about motor trucks; particularly the Alco truck which is coming so rapidly into favor all over the country.

Come down and look over the Alco any day. We will be glad to see you.

EASTERN MOTOR SALES CORP., 920 W. Broad St., Monroe 2666

Distributors also of Alco 6-cylinder and 8-cylinder Motor Cars and Alco Taxicabs

Alco Motor Trucks are built by American Locomotive Company.

Motor Truck vs. Horse—Alco Argument No. 2

DOUBLE AVIATION FATALITY OCCURS

Two Young Lieutenants of Army Flying Corps Dashed to Death.

Oxford, England, September 10.—Another double aviation fatality, the second within a week, occurred early today to members of the army flying corps, when Lieutenant C. A. Battington and Lieutenant E. Hutcheson, both of whom had just been given commissions on probation, were killed while flying past Wolvercote.

The machine in which the officers were maneuvering had passed over Oxford and had reached a point just outside Wolvercote, when the motor appeared to stop and the airplane fell to the ground from a height of 400 feet. One account of the accident says that an explosion occurred while the machine was in the air.

The body of one of the officers was found in the river and the other was picked up in a field.

The officers were young men, who only recently had received their flying certificates. A big battle in the army maneuvers, in which a number of officers of the flying corps are taking part, began yesterday, and the newspapers this morning refer to flying terms to the success of the aviation corps.

CHARLOTTESVILLE COUNCIL CHOOSES CITY OFFICIALS

[Special to The Times-Dispatch.] Charlottesville, Va., September 10.—The following city officials have been chosen by the new City Council: C. D. Shanksford, police justice; George Perkins, city attorney; W. C. Payson, overseer of poor; Dr. R. L. Robertson,

health officer; Charles D. Carter, superintendent of water; H. M. Hantmon, superintendent of gas; J. E. Williams, superintendent of cemeteries; T. A. Trice, chief of police.

The following appointments have been made by Mayor Conway: C. L. Brown, manager of chain plant; J. H. Wood, health inspector; W. H. Graven, watchman; Edward Smith, janitor.

The following were chosen school trustees to fill vacancies: Dr. J. E. Perry, W. H. Wood, A. Lindsey, Henry M. Glasgow and J. H. Lindsay.

POLICE OFFICER INSTANTLY KILLED

Shot by Drunken Man Whom He Warns to Leave Fair Grounds.

[Special to The Times-Dispatch.] Bristol, Va., September 10.—The Lee County fair grounds at Jonesville were the scene of a murder at 3 o'clock this afternoon, when Thomas Flenor, thirty-five years old, shot and killed M. D. Denny, a county police officer. Denny, who observed that Flenor was intoxicated and displaying a revolver, warned him to leave the grounds. Instead of obeying, Flenor drew his revolver and fired three shots at Denny, all of which took effect, one entering the brain, another the heart and a third penetrating the lower body. Denny fell dying on the spot.

Sheriff A. B. Robbins immediately arrested and disarmed Flenor and hurried him to jail. Flenor, who had been operating an automobile between Ben Hur and Jonesville, has a wife and seven children, while Denny leaves a wife and three children.

FOUND NO ARSENIC IN UNUSED COFFEE

[Special to The Times-Dispatch.] Harrisonburg, Va., September 10.—Chemist Taylor's report on the analysis of the contents of the stomach of G. M. Nicholas, the wealthy farmer who died from poisoning on August 5, was made public today by Coroner Bealer, after a consultation with the four brothers of the dead man. The Richmond chemist found arsenic in the stomach, but failed to find arsenic in the portion of unused coffee, which he also examined. The conclusion is that arsenic was placed in the coffee, which Nicholas drank for breakfast on August 5. Chemist, coroner and Commonwealth's attorney all agree that Nicholas was evidently a victim of cold-blooded murder.

The supervisors have offered \$100 reward and Governor Mann has offered \$250 more.

YOUNG RETIRES FROM RACE

No Longer Candidate for United States Senate From New Jersey.

Trenton, N. J., September 10.—George W. Young, of Jersey City, has withdrawn his petition as a candidate on the Democratic ticket for United States Senator. The time for filing withdrawals expired yesterday, but as Mr. Young's notice of withdrawal was mailed yesterday it was filed with the Secretary of State today as of yesterday's date. Mr. Young's withdrawal leaves the following candidates in the field for the primary election to be held on September 24: Republican—United States Senator Frank O. Briggs. Democratic—Former United States Senator James Smith, Jr., State Senator William C. Gebhardt, Congressman William Hughes, former Judge John W. Westcott, and Frank McDermitt.

Laid Before Wickersham.

New York, September 10.—Surgeon-General Rupert Blue, of the public health service, stated tonight that he was fully informed of the infraction of the quarantine laws by the steamer Havana. He reluctantly admitted that the matter had been laid before Attorney-General Wickersham and that the government was taking steps looking to the prosecution of the steamer's owners.

Surgeon Blue said reports had reached him from Acting Assistant Surgeon Wilson at Havana that in violation of the American regulations, the steamer had unloaded and received cargo at a wharf there without the use of rat guards and without having undergone fumigation before sailing of the United States Public Health Service vessel during the time she was in port.

The steamer Manzanillo of the same line, Surgeon Wilson reported, said Dr. Blue, was to be loaded September 7 under the same conditions and would be liable to similar proceedings. Passengers on the Havana, said Dr. Blue, may have undergone the regulation quarantine at New York. He also explained that should plague develop among the passengers, the steamship company might be liable to them for damages.

TARIFF IS SUSPENDED

Proposed to Increase Rates on Phosphate Rock Shipments.

Washington, September 10.—The Interstate Commerce Commission today suspended from September 14 to January 11 railroad rates on phosphate rock from Tennessee to Virginia and Eastern cities.

The tariffs suspended proposed to increase rates on shipments in bags and barrels, leaving the present rates only upon shipments in bulk.

There is a heavy phosphate rock traffic between Maryland, Pennsylvania, Virginia, North Carolina, South Carolina, Tennessee, and Norfolk and Richmond, Baltimore, Philadelphia, New York, Boston and other cities.

Richardson on Chancery Bench.

The will of Charles Knapp was proved in the Chancery Court yesterday. Judge D. C. Richardson, of the Hastings Court, sitting in the absence of Judge Daniel Grinnam. The estate is valued at \$2,000. There was no qualification.

The Virginia Trust Company qualified as executor of Mary A. Terry. The estate is valued at \$2,000.

THORPE MAY JOIN PIRATES' TEAM

Greatest Athlete in World to Break Into Professional Baseball.

New York, September 10.—It is not been a far cry from the forest and the wild stream to the big cities and the luxuries of the palace for several Redskins who have made coin and fame on the green diamonds on the baseball circuit. While Lewis Sockalexis was the most famous of the advance guard of Indian ball players, Big Chief Myers and Big Chief Bender have been the most notable of the Sons of the Forest who have dined with the big and the small, thereby gaining celebrity and fortune.

Next to football, the national game has had the most powerful attraction for Indians. Next year, if Uncle Sam does not object, there will be another star added to the redskin galaxy of diamond warriors. Jim Thorpe, the greatest all-around athlete in the world, is said to have promised President Barney Dreyfus, of the Pittsburgh club, to sign with the Pirates next season.

The winner of the deerskin and the pentathlon at Stockholm and the football captain at Carlisle, this fall will break into professional baseball, the sport to which he says he is just a trifle partial.

But before he can sign with the Pirates Thorpe must get the consent of Uncle Sam. He belongs to the Sac and Fox tribe of Indians, who are still wards of the government, and who must have the consent of a government agent before they can transact any business.

These could have been signed with the Pirates this season. He did not care to because he had been elected captain of the Carlisle football team and wanted to preserve his amateur standing. In another year he will be through college and then the man who was to have been the star of the King of Sweden hopes to be presented to the King of Sweden.

Thorpe ought not to feel lonesome in the big show. Probably now and then he will run across Chief Bender, also a Carlisle man, who has been one of Connie Mack's mainstays for the last ten years or so. If he tries for a mound job, as he plans to do at present, of course, he will have the opportunity to try to keep Chief Meyers from slugging the ball to all corners of the lot, as he often did when batting against "Babe" Ruth.

Thorpe will not be the only Indian recruit in the big league. There is Paula Hendricks, of the Pirates, and pitcher George Murphy Johnson, purchased from the St. Joseph club by the Chicago White Sox.

There is scarcely a minor league in the country that does not boast of at least one or two Indian players. Louis Riel, once with the Highlanders, has been a winning pitcher for St. Paul for years. Four years ago, Chief Meyers and Leroy formed the only genuine Indian battery in organized baseball. Both are college graduates, Meyers having gone through Dickinson with high honors, and Leroy through Carlisle.

About the only time an Indian fails to make good in professional baseball is when he tries to amaze averages on the diamond in the afternoon and in the "dewy league" at night. That was what happened to Chief in business years ago. When he broke in at Cleveland in the halcyon days of Fatsheleau, he was accounted the most promising youngster in the game. He gave him, and now he is content in his job as a ferryman in Maine.

BILL OF HEALTH REFUSED

Steamer Unable to Pass of \$5,000 for Violating Quarantine Laws.

Havana, September 10.—The Ward line steamer Havana left this port last Saturday for New York after a bill of health had been refused by the American consul general on account of the vessel's owners having failed to comply with the quarantine regulations imposed by the United States Public Health Service, owing to the plague situation. It was learned today.

Upon the steamer's arrival at New York tomorrow afternoon she will be subject to quarantine restrictions. It is said, and will be liable to a fine of \$5,000 for violation of the United States quarantine laws.

Laid Before Wickersham.

New York, September 10.—Surgeon-General Rupert Blue, of the public health service, stated tonight that he was fully informed of the infraction of the quarantine laws by the steamer Havana. He reluctantly admitted that the matter had been laid before Attorney-General Wickersham and that the government was taking steps looking to the prosecution of the steamer's owners.

Surgeon Blue said reports had reached him from Acting Assistant Surgeon Wilson at Havana that in violation of the American regulations, the steamer had unloaded and received cargo at a wharf there without the use of rat guards and without having undergone fumigation before sailing of the United States Public Health Service vessel during the time she was in port.

The steamer Manzanillo of the same line, Surgeon Wilson reported, said Dr. Blue, was to be loaded September 7 under the same conditions and would be liable to similar proceedings. Passengers on the Havana, said Dr. Blue, may have undergone the regulation quarantine at New York. He also explained that should plague develop among the passengers, the steamship company might be liable to them for damages.

The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves but the child has to rely on the mother's watchfulness.

Letters from Prominent Druggists addressed to Chas. H. Fletcher.

Central Drug Co., of Detroit, Mich., says: "We consider your Castoria in a class distinct from patent medicines and commend it."

Christy Drug Stores, of Pittsburg, Pa., say: "We have sold your Castoria for so many years with such satisfactory results that we cannot refrain from saying a good word for it when we get a chance."

Jacob Bros., of Philadelphia, Pa., say: "We take pleasure in recommending Fletcher's Castoria as one of the oldest and best of the preparations of the kind upon the market."

Hess & McCann, of Kansas City, Mo., say: "Your Castoria always gives satisfaction. We have no substitute for it and only sell 'The Kind You Have Always Bought,' the original."

The Voegell Bros., of Minneapolis, Minn., say: "We wish to say that we have at all times a large demand for Fletcher's Castoria at all of our three stores and that it gives universal satisfaction to our trade."

Polk Miller Drug Co., of Richmond, Va., says: "Your Castoria is one of the most satisfactory preparations we have ever handled. It seems to satisfy completely the public demand for such an article and is steadily creating a growing sale by its merit."

P. A. Capdan, of New Orleans, La., says: "We handle every good home remedy demanded by the public and while our shelves are thoroughly equipped with the best of drugs and proprietary articles, there are few if any which have the unceasing sale that your Castoria has."

M. C. Dow, of Cincinnati, Ohio, says: "When people in increasing numbers purchase a remedy and continue buying it for years; when it passes the fad or experimental stage and becomes a household necessity, then it can be said its worth has been firmly established. We can and do gladly offer this kind of commendation to Fletcher's Castoria."

GENUINE CASTORIA ALWAYS Bears the Signature of

Chas. H. Fletcher

The Kind You Have Always Bought

In Use For Over 30 Years.

VALENTINE QUILTS INDIAN SERVICE

Commissioner Resigns and Will Aid in Progressive Party's Campaign.

Washington, September 10.—Robert G. Valentine, Commissioner of Indian Affairs, today sent his resignation to the Interior Department, to become effective at the discretion of Secretary Fisher, now in Hawaii. Mr. Valentine will join the Progressive party. In a public statement explaining his resignation, Mr. Valentine referred to his desire to work in the Progressive party as his only wish for quitting office. He made no mention of the so-called Indian graft order which he promulgated a few months ago, and which raised a storm of protest from officers of the Roman Catholic Church. It forbade the wearing of religious garb by teachers in such schools. It was claimed its effect would have been to bar sisters of the Catholic order from schools on the reservations. President Taft summarily suspended the order. A new one is about to be promulgated. Its terms are not fully known, but it is reported it probably will satisfy those on both sides of the controversy. Mr. Valentine has defended the order on the ground that it favored the principle of the separation of church and state.

In his statement the commissioner said: "Inasmuch as the President knows the needs of the Indian service and the forces of evil that are to be guarded against, I need not refuse the call of duty that the Progressive party program makes on me through fear that the Indians will be left unprotected. In a public statement explaining his resignation, I have a solemn duty confronted with the necessity, the President will appoint some one having the standards of Miss Lathrop at the head of the children's bureau or Mr. Conant at the head of the Bureau of Corporations."

The work of the Indian service is, from every honorable point of view, a nonpolitical work of social service. I would not now leave it except for what seems to me a pressing obligation to take part in the larger work of the Progressive party on the same lines.

BIRKHEAD INDORSED BY CITY SCHOOL BOARD

Probably Will Be Chosen as Superintendent of Fredericksburg Schools.

[Special to The Times-Dispatch.] Fredericksburg, Va., September 10.—The City School Board has unanimously indorsed Professor E. M. Birkhead, Jr., principal of the high school, for election as superintendent of the public schools of Fredericksburg, to fill the vacancy caused by the resignation of Superintendent Hugh S. Bird. The State Board of Education will make the appointment. Professor Birkhead will undoubtedly be chosen without opposition, and he will fill both positions, that of superintendent of the public schools and principal of the high school.

Rev. E. L. Hardcastle, of Northumberland County, has accepted a call extended to him to take charge of Urbanna and Clark's Neck Baptist Churches, in Middlesex County.

The State convention of the Patriotic Order of Sons of America convened here today with a large attendance of delegates. The opening exercises, to which the public was invited, were held in the courthouse at 10 o'clock. An address of welcome was delivered by Mayor J. B. Rouse in behalf of the citizens. C. O'Connor Goodrick, in behalf of the Business Men's Association, and A. B. Bowdoin, in behalf of the local lodge, and responses were made by Rev. T. J. Hacker, D. D., and Thomas B. Ivey, of Petersburg. After the public exercises were over the convention went into executive session and will continue for two days.

The little son of Mr. and Mrs. Leslie McWhorter was struck by a tie wagon, and knocked down, but fortunately the wagon did not pass over his body. He was badly bruised, and a physician was summoned, but an examination showed that no bones were broken.

Traveling on the Rappahannock River this summer has been larger than for a number of years. Steamers plying between Fredericksburg and Baltimore have been crowded nearly every trip, and at times special steam-

ers have been sent to relieve the congestion of travel.

COMMENDED FOR BRAVERY

Florida's Men Dive Overboard to Dismantle Seaman.

Newport News, Va., September 10.—A general muster on board the ship Florida, just returned to it Roads from drill and target, a special order and a person from the Secretary of the Naval read commending for special Master of Arms F. Feneel, C. W. Eiche and Seamen David and T. Swartz, for diving board in open sea in the dark for and saving the life of a man. The man, who had been in the sea in a demented state, was rescued by the men. The madman fought his rescuers heroically in the water. The work of rescue doubly dangerous.

PREACHER COMMITS SUICIDE

Rev. R. E. Steele, of Lumberton, N. C., to End Life.

[Special to The Times-Dispatch.] Lumberton, N. C., September 10.—Rev. R. E. Steele, pastor of the Presbyterian Church here, committed suicide at the manse by taking a dose of about 250 o'clock this afternoon. He was very despondent, and the cause thereof is uncertain. The funeral will take place tomorrow afternoon at 3 o'clock.
